Mitigation work would only take place on Town lands, not on private lands. Mayor Newberry stated that the Green Mountain Falls could only commit to one year's budget at a time. Angie Sprang stated that a letter of commitment could be possible, detailing intentions of committing \$15,000 the first year, and prioritizing \$15,000 for the next 2 years during the budgetary process but not guaranteeing funds for a full 3 years. Trustee Loo asked how much of a project could be completed with \$90,000 over 3 years; Ms. Connelly stated that work was completed in acreages, but it was difficult to determine since the high-risk areas in Town are in "patches." Trustee Loo asked if there were other grants to apply for fire mitigation work in the future; Ms. Connelly affirmed this. Ms. Connelly stated funds would go to identifying nuisance and diseased trees, and to removing the trees. Trustee Guthrie asked if funding would also go to educating private owners about nuisance trees, and Ms. Connelly affirmed. Ms. Connelly explained that there is a mistletoe infection throughout the trees in Town, which weakens the trees and can lead to a beetle infestation. Mayor Newberry asked that Angie Sprang work with Ms. Connelly Mayor Newberry made motion to apply for this grant; seconded by Trustee Peterson. Trustee Loo asked if \$30,000 for grant efforts in 2021 budget was allocated to any specific project; Angie Sprang said, it was up to the Board. Mayor Newberry said it would be good for \$15,000 to be allocated to FM grant opportunity, but to use the remaining funds for other grant opportunities. Board agreed. Mayor made motion to support Michelle Connelly to pursue grant for \$15,000 pledge from Town, seconded by Trustee Quinn. All in favor, none opposed. Motion passes.

RE: PARKING AND SIGNAGE VIRTUAL COMMUNITY FORUM & ONLINE COMMUNITY SURVEY

To Residents, Property and Business Owners of Green Mountain Falls:

For the past several years, there have been growing concerns about Trail Use, Signage, and Parking in Green Mountain Falls. This last summer, as people looked for opportunities to recreate outdoors in light of the COVID-19 Pandemic, these problems became even more apparent.

On September 26, a Task Force consisting of Town Staff, Residents, and Business Owners was convened to both discuss Parking, Signage, and Trail Use in Green Mountain Falls, as well as potential opportunities to address issues that the Town has been experiencing. Many such opportunities were discussed, from creating a managed parking program (to potentially include paid visitor parking), to surveying trail heads and looking to consolidate access into the trail system around Green Mountain Falls.

The next step in this process for the town is to hold a Virtual Community Forum during a Board of Trustees Meeting on December 15 at 7:30pm, and publish an online Parking & Signage Community Survey, so that your voice can be expressed in this process. This survey is available now and through January 19, 2021, and takes approximately 10 minutes to complete. Links to join the December 15 Virtual Community Forum and to take the Parking & Signage Community Survey are available now on the homepage of our Town's website www.gmfco.us. This is an opportunity for you to tell the Town your opinion regarding these important issues that impact us all.

Once the Survey is complete, we will hold another Virtual Community Forum to discuss the problems that were identified by the Task Force & the Community Survey, as well as potential opportunities to improve the situation in the future. This meeting will be virtual and will be held on February 2. There will be opportunities for Residents, Property and Business owners to receive information, ask questions, and provide comments on Parking, Signage and Trail Use in Green Mountain Falls.

The Board of Trustees and I firmly believe that addressing these problems related to use of our community is an important step that we can take to improve the quality of life and experience for all Residents, Property and Business Owners of the Town, as well as for visitors to the town. Please feel free to contact us with your ideas and concerns about this planning process we are undertaking, and please complete the Community Survey. I look forward to speaking with you at our Community Forum.

Sincerely,

Jane Newberry

Green Mountain Falls Parking and Signage Plan

**Stakeholder
Workshop #1
September
26, 2020**

The Problem expressed by the Community

The Town of Green Mountain Falls has a parking problem. Parking is often congested due to recreational use of Trails, which limits others ability to visit Town restaurants and shops and to use other town facilities.

Signage in Green Mountain Falls is also a problem. There is sign “pollution”, and the Town needs to work on formalizing Wayfinding and other signage.

This Stakeholder group is tasked with providing input regarding how a potential managed parking program and signage plan for the Town should work.

I am Jonathan Cain. I am the Assistant City Administrator of the City of Idaho Springs, and the Director of Community Outreach and Engagement for the Clear Creek Economic Development Corporation.

I study Equitable Governance and Asset Based Community Development at CU Denver; I am writing my thesis regarding the Right to the City and Parking Management in Rural Towns and City's with tourism-based economies.

I had a lead role in the creation and design of the City of Idaho Springs Parking Management Program and am responsible for it's ongoing management, along with Community Outreach and Engagement in the City and County.

General Overview of the Process

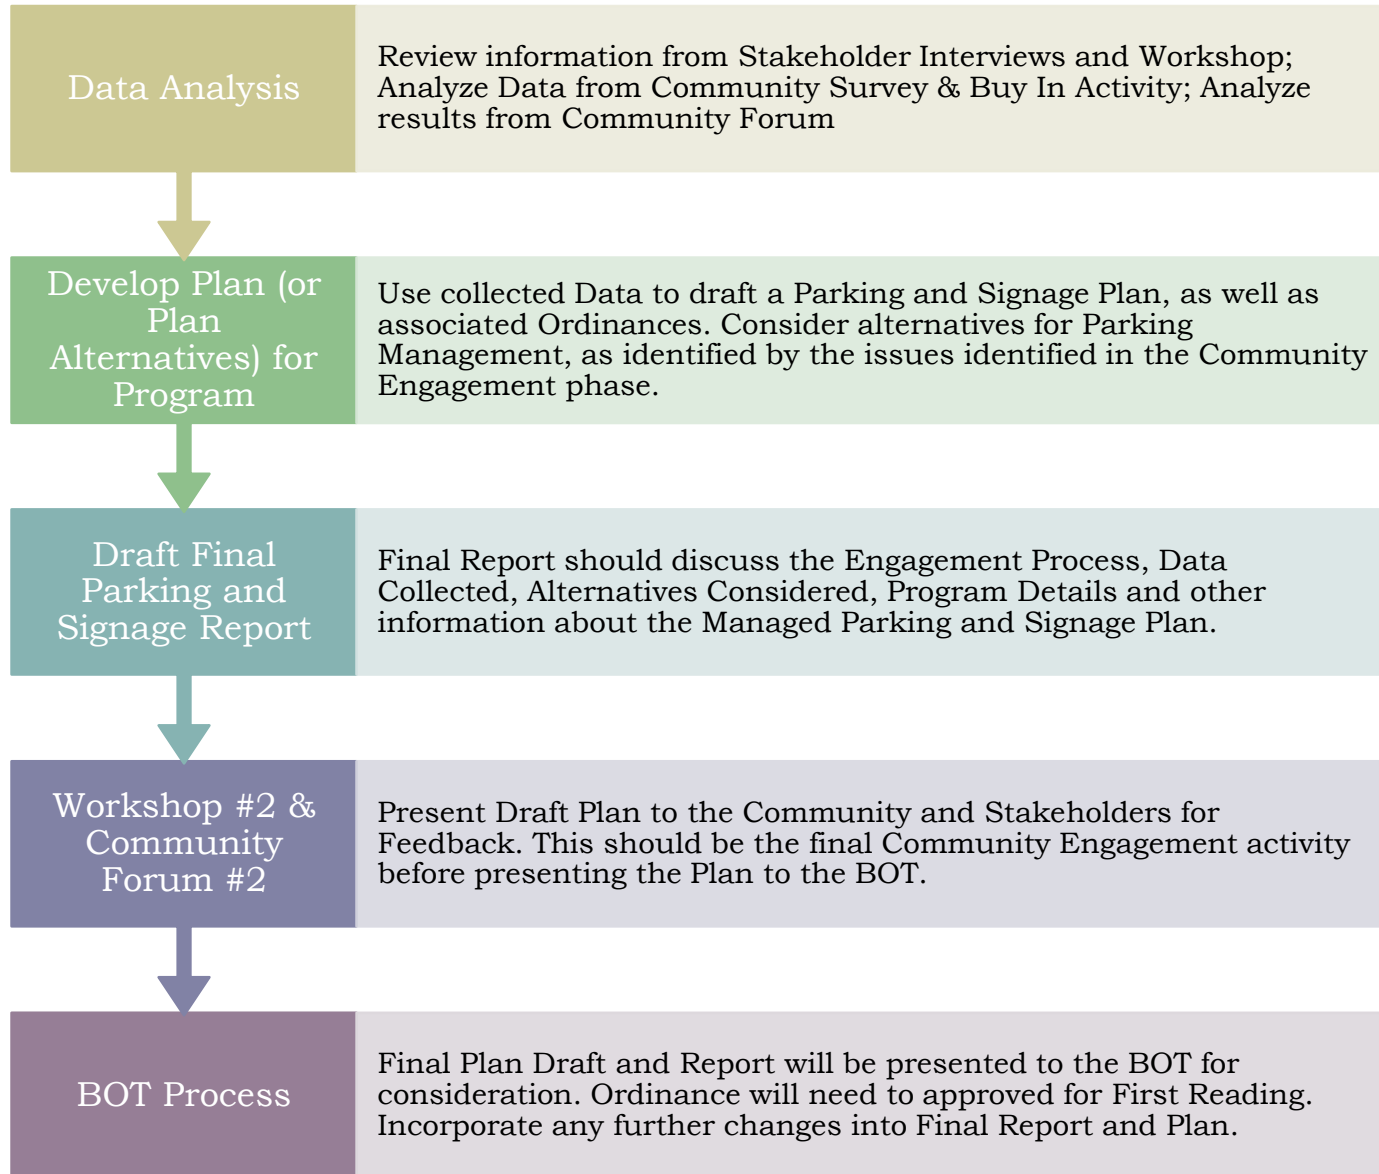

**Step 1:
Identify
Issues**

**The first Step in
the Process is to
identify the
problems to be
solved.**

Step 2: Identify Goals & Build Program

The Second Step is to identify Goals for the Program and create a Draft of the Parking and Signage Plan.

Themes from the Stakeholder Interviews

**Green Mountain Falls
has a Parking
Problem.**

**It would be
beneficial for the
City to Manage
Parking in Town.**

**The Capacity of City
Staff to manage
such a program is
important to
consider.**

**We should ensure that
the impact on
residents and other
community members
from the program is
low.**

**Green Mountain Falls
has a Signage
Problem.**

**There is sign

Town.**

**There should be

Other Considerations

In terms of Community Engagement, another “channel” for community members to engage governmental leaders regarding the program.

Vitally important to have documented and clear evidence that there were multiple different sorts of opportunities to provide the Town with Feedback on the program.

Community Leaders explain Background, Goals of Program. Tell Community about the upcoming survey, how important it is to build a “contextually sensitive plan that takes the needs of the community into account”

Allow the conversation, take the feedback. As long as it takes.

Community Forum

Letter should provide background, explain the process and timeline, and include a good call to action to complete the survey.

Important that questions are designed to be unbiased, and that we get statistically significant results.

Potential for multiple surveys for different sorts of users (Business, Resident, etc.)

Do we have a budget; how will we ensure everyone knows about the survey, what will we do if they don't?

Community Letter and Survey

Stakeholder Interviews and Initial Workshop (complete as of 9/26/20)

Formulate & Approval of Community Letter and Survey (Draft by 10/3/20)

Community Forum, Publish Letter & Survey upon approval of letter and Survey. Publish Letter & Survey night of Forum.

Data Collection (Survey should run at least 2 weeks, longer would be better)

Draft Final Plan, Report, Ordinances (Done Early 2021)

Secondary Community Engagement Phase (Workshop 2, Community Forum 2) (Upon completion of Drafts)

BOT Consideration, Ordinance Readings (First available meeting after community forum)

Program Roll Out (March-May 2021)

Implementation Date & Follow Up Process Improvement (May 31 (Memorial Day))
