

Town of Green Mountain Falls

Regular Fire Mitigation Advisory Committee Meeting Agenda

P.O. Box 524; 10615 Green Mountain Falls Road

Green Mountain Falls, CO 80819

June 30, 2021 at 7:00 p.m.

Online Meeting ONLY**

Join the Zoom Meeting by clicking on the following link:

<https://us02web.zoom.us/j/88035602454?pwd=dDI2ZmNSUW5DYkFodVZHeXB0UjR2UT09>

Meeting ID: 880 3560 2454

Passcode: 224339

To make a **public comment** please **pre-register** by 4pm on the day of the meeting via email: clerk@gmfco.us

REGULAR MEETING:

TIME*		ITEM	DESIRED OUTCOME
7:00	1.	CALL TO ORDER / ROLL CALL / PLEDGE OF ALLEGIANCE	
7:00	2.	ADDITIONS, DELETIONS, OR CORRECTION TO THE AGENDA	FMC Action Desired
7:00	3.	PERSONS PRESENT NOT ON THE AGENDA: 3 MINUTES PER SPEAKER	Information Only
7:05	4.	CONSENT AGENDA a. Minutes from 5/26/2021	FMC Action Desired
7:10	5.	Presentation and Q/A by Forest Service NEPA Planner, Jenn DeWoody	Information Only
7:30	7.	Old Business a. Evacuation Plan	FMC Action Desired
7:45	8.	New Business a. New Member Application – Fred Thrash b. FMC Meeting Dates and Times	FMC Action Desired
8:00	9.	Reports a. Notification and Evacuation b. Fuels Mitigation a. Meeting w/ Michelle Connelly c. Grants d. Education Town Staff	
8:40	10.	CORRESPONDENCE	Information Only
8:45	11.	ADJOURN	Information Only

*Please note: Times are approximate.

**The Town shall provide reasonable accommodation for those with disabilities on a case by case basis. Please send accommodation requests to clerk@gmfco.us by 4pm on the date of the meeting.

**Town of Green Mountain Falls
Regular Fire Mitigation Advisory Board Meeting Agenda
10615 Green Mountain Falls Road
May 26, 2021 7:00 PM**

REGULAR MEETING MINUTES

Board Members Present

David Douglas
Dan Battin
Rich Bowman
Nathan Scott

Board Members Absent

Alternate

Secretary

Matt Gordon

Town Staff Present

Matt Gordon

Regular Meeting:

1. Call to Order/Roll Call/Pledge of Allegiance
Meeting called to order at 7:00 PM. Pledge recited.

2. Additions, Deletions, or Corrections to the Agenda

3. Persons Present Not on the Agenda, 3 Minutes per Speaker

4. Consent Agenda

Member Scott moved to approve. Second by Member Battin. Motion passed unanimously.

5. Reports

Members opened discussion on the evacuation plan and questioned if it was ready for the BOT. Members Scott and Battin shared concerns regarding the zones on the map, descriptors of the map, size of the map, and the level of detail for traffic control. Members tabled discussion on the evac plan for the next meeting on 6/30.

Discussion moved to the Iona Assessment. Members discussed the budget of the assessment. Member Scott moved to approve the letter requesting funds with a max of \$500 and not to exceed \$300 for the assessment. Seconded by Chair Douglas. Motion passed unanimously.

Chair Douglas shared details from a conversation with PRT Chair, Jesse Stroope in regards to funding and grants from the Kirkpatrick Foundation.

Members then moved to discussion regarding developing a map of private property fuels mitigation.

Lastly, Chair Douglas shared that he was preparing an education program doc.

6. Old Business

7. New Business

8. Correspondence

9. Adjourn

Meeting adjourned at 8:21 PM.

VOLUNTEER WAIVER, RELEASE AND INDEMNITY AGREEMENT

I, _____, have agreed to volunteer my services for the Green Mountain Falls _____ activity.

I am informed and understand that the Activity is co-sponsored by the Town of Green Mountain Falls. The work to be performed at the Activity is outlined below:

I agree that I will not perform any work beyond the scope of work outlined above.

I further understand that the Town provides no compensation for my services and that I am not entitled to any benefits from the Town, including but not limited to workers' compensation benefits.

Assumption of Risk

I understand that there are risks of injury, death, and damage to property from performing the Activity for the Town. I attest and verify that I possess the physical fitness and ability to perform the Activity and that I have no physical limitations that would affect my performance of the Activity. If I do not feel that I am capable of performing the Activity, I assume the responsibility of informing the Activity Supervisor or Manager.

In consideration for being allowed to participate in the Activity, I hereby assume the risk of, and responsibility for, any such injury, death or damage which I may sustain arising out of or in any way connected with performance of the Activity, including injury, death or damage resulting from any acts or omissions, whether negligent or not, or any property or equipment owned or supplied by or on behalf of the Town, its officials, officers, employees, agents, volunteers, and any other promoters, operators or co-sponsors of the Activity.

Release and Indemnification

In consideration for being allowed to participate in the Activity, I hereby release, waive and discharge the Town, its officials, officers, employees, agents, volunteers, and any other promoters, operators or co-sponsors of the Activity, from any and all liability, claims, or causes of action arising out of or in any way connected with my performance of the Activity, or upon its acts or omissions, whether negligent or not. I agree to this Waiver on behalf of myself, my heirs, executors, administrators and assigns.

As further consideration for being allowed to participate in the Activity, I hereby agree, on behalf of myself, my heirs, executors, administrators and assigns, to indemnify and hold harmless the Town, its officials, officers, employees, agents, volunteers, and any other promoters, operators or co-sponsors of

the Activity, from any and all claims for compensation, personal injury, property damage or wrongful death caused by my negligence or willful misconduct, in the performance of the Activity.

Knowing and Voluntary Execution

I have carefully read this Waiver and Release Form and fully understand its contents. I understand that I am giving up valuable legal rights. I knowingly and voluntarily give up these rights of my own free will.

Signature of Parent or Guardian: _____

Family Physician: _____ Phone Number: _____

Insurance Company and Policy No.: _____

Pertinent Medical History (e.g. Epilepsy, Diabetes, Asthma, Allergies to Medicine, etc.): _____

Wording for GMF portion of State Fire Assistance WUI Grant Program (SFA)

Include a map of the project area in PDF format.

Box 2:

Project title: “GMF Healthy Forest Project”

Names of affected communities (towns and or names of subdivisions): Green Mountain Falls
CO

Counties: El Paso, Teller

Congressional Districts: 5th Congressional District

Box 3 – Budget Template ??

Box 4 - Budget Narrative

Example:

Personnel/labor: _____

Supplies: flagging, tree paint, publications, printing, mailing, signs: _____

Travel: Project mgr to meet with landowners and partners, conduct meetings:

Contractual: Grant funds passed through and used by landowners and communities to hire contractors, equipment rental such as chippers, do the work themselves:

Box 5 - Project Area Description and Challenges - Give an overview of the project, describe the hazards, describe why the project area was chosen (why it is different, unique, important), and clearly show the need for work in this area. If applying for a fuels reduction project, describe the vegetation types. It is important to define the problems and challenges so when you get to Box 7 you are clearly stating how the funding will be used to address the challenges. Describe the project benefits to land and people – direct and indirect.

Overview: A multi-year project to protect the forest habitat in and around Green Mountain Falls (GMF) Colorado and encourage community and partner participation in wildland fire mitigation and creation of defensible space. GMF is located in the steep canyon of Catamount Creek and Fountain Creek on the north slope of Pike's Peak. 99% of GMF population live within the WUI (ref. CO Wildfire and Risk Assessment Summary Report, version 5.0, 10/8/19). Within Town limits, the highest wildland fire threats and risk exist on the south flank (Mt Rebecca, Mt Esther) and north flank (Mt Dewey). (ref. 2019 Town of GMF Comp Plan, Appendix 1, Fig. 2, Fig. 4)

Hazard: Per Colorado Wildfire and Risk Assessment Summary Report, version 5.0, dated 10/18/2019:

- 42% of GMF land is WUI risk class -9, “Most Negative Impact”
- 62% of GMF land is considered “High” Wildfire Risk
- Over 95% Fire Occurance Level 8 or 9 ignition density (highest occurrence)
- Slope on Mt. Rebecca (southwest backdrop of Town) is -5 to -9 “Suppression Difficulty Rating”

Why mitigate in / around Town of GMF?

Town Vision (per 2019 Comprehensive Plan): “A rustic town that is celebrated for our rich, multi-generational history, small community charm, and immediate access to an unmatched trail system.”

Mitigation efforts seek to leverage this 11 mile trail network to provide access to work crews and to delineate mitigation units. Philosophy: work from trail network inward towards private property, before moving outward to Town boundary with adjacent public lands. The thought is to encourage private land owners in Town to continue to mitigate and expand defensible space.

Unique:

- Trails System
- Annual Green Box Arts Festival since 2009. World class art, dance, culinary, kids programs
- Annual “Bronc Day” town celebration and parade, since 1939
- Gazebo, 1888: state historical designation
- Land Office, 1888
- Church of the Wildwood, 1889
- GMF Municipal Pool, 1939, bathhouse rebuilt 2002
- Sallie Bush Community Building, 1950
- Watersheds: Fountain Creek, Catamount Creek, Crystal Creek

Vegetation types: Mixed conifer (largest), Ponderosa Pine, Aspen, Oak Shrubland, Grassland. (Per 2019 GMF Comp Plan page 85, Fig. 1).

Box 6 - Relation to Forest Action Plan | CWPP –

Clearly describe how the project fits into the specific goals of the:

- FAP ??
- the national goals of Enhancing, Protecting and or Conserving ??
- specific CWPP goals and objectives.

Describe how the project meets the goals of these documents. Do not provide page number references; describe how the project relates to both documents.

August 2007 Ute Pass CWPP:

Goals: “to inform residents and involve them in the process /goals of the CWPP; to reduce hazardous fuels through mitigation efforts with all stakeholders, promote forest health; support firewise techniques in the creation and maintenance of defensible property for all stakeholders.”

GMF Healthy Forest Goals:

- Reduce fuel loading and catastrophic fire risk in and around GMF
- Safeguard watershed resources and protect soil from erosion
- Increase private participation to create and increase defensible space
- Improve wildlife habitat for animals and recreation experience for humans
- Link with surrounding landowner efforts to advance forest health in larger ecosystem

Box 7 – Proposed Activities - Explain exactly how the grant dollars will be spent on this project and outline what will be accomplished. Use measurable units where applicable. Specify the location of the project, total acreage, and identify how many people will be directly and indirectly impacted. Describe treatment methodology, vegetation type, and who will be doing the project work.

Need GIS / mapping of units. Determine acreage

Direct impact: 1,300 residents, hundreds of vacation renters, thousands of hikers per year.

Methodology: Tree stands will be thinned mechanically or manually to return treated areas to their historic range of variability; Slash will be lopped and scattered or chipped and broadcast to maintain slope stability; The corridor areas immediately adjacent to hiking trails will be minimally affected by thinning / cutting; Prime habitat or nesting sites will be marked and preserved to retain 2-7 snags per acre for wildlife.

Vegetation type: Mixed conifer (largest), Ponderosa Pine, Aspen, Oak Shrubland, Grassland. (Per 2019 GMF Comp Plan page 85, Fig. 1).

Who: _____

Box 8: Landscape - Describe the landscape this project influences. Show how the project has or will have impact outside the immediate project area. For example, a project in a community may compliment a USFS project to create a fuel break around your community defensible space project. Give specifics on how this project will tie into the larger picture of community protection or education. Explain how your project compliments or enhances those by other

agencies or groups and/or ties into a greater goal. Explain the who, what, when, where, why and how of its anticipated impacts. Note, be specific when naming USFS, private, or other related projects. Include information on the broader acreage, number of communities, or other CWPPs that this project will connect with. Think global (watershed) not local (subdivision).

USFS: current mitigation work in Crowe Gulch (project name?), Pike's Peak North Slope (project?)

CSFS: ?

CSU: Ongoing watershed protection projects (name(s))? Directly impact (flow through Town: Fountain Creek, Catamount Creek, Crystal Creek)

Box 9 - Project Collaboration - Describe the contributions each partner will make to the project by stating the collaborating partners name and what the specific activities they will be contributing to the project such as labor, equipment, matching funds, etc. State what they are contributing – the specific activity AND the dollar values of the activity. All items listed as match in this section MUST equal the match listed in Box 3

GMF FY 20 = \$5K

Kirkpatrick Family Fund – pending decision

CSU = _____

Box 10 - Project Timeline – Provide a concise timeline for the significant activities, broken down by year, included in *the Proposed Activities* section including: begin/end dates, milestones, annual accomplishments, deliverables (e.g. number of homes with defensible space completed per year, number of community meetings held with # of attendees at each), and who is responsible for each activity.

YEAR 1 (2020-21) -Finalize paperwork and project details month 1 -Project layout completed - month 2- -Coordinate meeting between cooperators- month 3 -Contracting- competitive bid process, hire contractor(s), collect damage deposit- month 4-5 -Begin project implementation by contractor(s) (weather dependent)-months 5-7 -Project implementation (weather dependent)- months 8-12 -Interim reporting-months 11-12 Seasonal Target: _____ acres completed

Treatment Areas:

Town rights-of-way

- Begin priority egress routes (Ute Pass Ave / Green Mountain Falls Rd, Hondo Ave, Belvidere Ave, Park Ave / Pine St).
- Begin Rights-of-way with existing roads

GMF South Flank: Begin Mt Rebecca below Thomas Trail to private property boundaries

YEAR 2 (2021-22) - Project implementation -months 1-12 - Interim reporting months 11-12
Seasonal Target: _____ acres completed

Complete priority egress routes along Town rights-of-way
GMF South Flank: Complete Mt Rebecca below Thomas Trail to private property boundaries

YEAR 3 (2022-23) -Paperwork processing months 1-2 -Monitoring (post-treatment)- months 1-2
-Final report submittal months 2-6 Goal: Process & submit paperwork. Seasonal Target: _____
acres completed

Complete Rights-of-way with existing roads
Begin Rights-of-way without existing roads
GMF South Flank: Begin Mt Rebecca above Thomas Trail to public property (USFS) boundary

YEAR 4 (2023-24) - Paperwork processing months 1-2 -Monitoring (post-treatment)- months 1-2
-Final report submittal months 2-6 Goal: Process & submit paperwork. Seasonal Target: _____
acres completed

Complete Rights-of-way without existing roads
GMF South Flank: Complete Mt Rebecca above Thomas Trail to public property (USFS) boundary

YEAR 5 (2024-25) -Final paperwork processing months 1-2 -Monitoring (post-treatment)-
months 1-2 -Final report submittal months 2-6 Goal: Process & submit final paperwork.
Seasonal Target: _____ acres completed

GMF South Flank – Begin Mt Esther below Kirkpatrick Trail to private property boundaries
GMF North Flank – Begin Bratton Trail below to private property boundaries

Out-years: monitor progress, reevaluate priorities

*Further refinement based on support from additional agencies (Coalition for the Upper South Platte, Colorado State Forest Service, Colorado Springs Utilities, El Paso and Teller Counties)

Box 11 - Project Sustainability - Clearly describe the who, what, when, where and why of how this project will remain effective and be sustained over time for each of the four elements below. When answering, be concise and provide only relevant details.

1 - Environmental Factors (vegetation regrowth): describe the maintenance requirements unique to this project based on site characteristics i.e., present and future vegetation occupying the site, growth rates, natural fire return intervals or any other environmental factor that affects the continued maintenance of this project

2 - Education (programs and methods): describe how landowners have been trained and educated to **maintain the project** and explain their understanding of the needs and expectations for the project's maintenance. If this is an information/education project, make sure to explain how it will be delivered, the audience you are targeting, and specific deliverables.

3 - Commitment: describe the commitment by the individual/community to maintain this project into the future, i.e. state laws, CWPP maintenance, signed landowner agreements or other documents or agreements that hold the sub-grantee accountable for project maintenance over time. If this is an information/education project, make sure you explain the commitment to carry this program forward and update as necessary.

GMF established a Fire Mitigation Committee in Feb. 2020 as a result of the fire risk identified in the Town's 2019 GMF Comprehensive Plan. The Committee is chartered to develop fire mitigation plans and to develop a notification and evacuation plan.

4 - Monitoring: describe who will be responsible for monitoring the project, what qualifications they have if they are not obvious (i.e. State Forestry personnel, Fire Safe Council member, Fire Department personnel, etc.), and at what intervals they will be checking (i.e. yearly, quarterly, etc.); clearly describe timelines, and milestones.

Healthy Forest Project:

On Wed, Jan 15, 2020 at 10:52 AM Rocco Blasi <rocblasi@gmail.com> wrote:

Hi Michelle,

Thanks for taking your time with this. Of course, since i developed this i think it's great! Kidding aside, i value your feedback. I agree that we'll need more detail as the program develops, especially describing education and outreach goals. Since this was a quick-turn we'll see if we have funding success. When things thaw it would be great to walk the initial priority areas with you and/or your team to determine more specific land areas and potential cost per unit. Laying out the specific treatment units on a map should help as well. Fingers crossed,
Rocco

On Wed, Jan 15, 2020 at 8:27 AM Michelle Connelly <michelle@cusp.ws> wrote:

Rocco,

I wanted to sleep on this and reconsider it this morning. I really think you've been comprehensive with this write-up. I was considering a more detailed explanation of how potential erosion would be controlled and a more detailed forestry prescription. But that might get too technical for this audience and may not be necessary. You've laid out the situation, risk, locations, and the timeline well. I think this is the most pertinent information and don't want to get into an information overload. What do you think?

Michelle

On Mon, Jan 13, 2020 at 3:26 PM Michelle Connelly <michelle@cusp.ws> wrote:

Rocco,

I should have this complete for you tomorrow.

Michelle

On Sun, Jan 12, 2020 at 3:28 PM Rocco Blasi <rocblasi@gmail.com> wrote:

Hi Michelle,

Angie, the GMF Town Manager, is compiling a grant package to solicit funding from the Kirkpatrick Family Fund for different projects in GMF. I am drafting the "Healthy Forest Project" wording and i'd like to get your input by noon Wed Jan 15th if possible. You'll see i've borrowed heavily from the CUSP documents you were kind enough to share.

Project: Healthy Forest Project

Funding requested: \$20K/yr for 5 years. Assumption: Town of GMF will continue to fund \$5K/yr for the next 5 years and seek additional grant money to match Kirkpatrick Family Fund contribution

GMF HEALTHY FOREST PROJECT

A multi-year project to protect the forest habitat in and around GMF and encourage community and partner participation in wildland fire mitigation and creation of defensible space

GOALS

- Reduce fuel loading and catastrophic fire risk in and around GMF
- Safeguard watershed resources and protect soil from erosion
- Increase private participation to create and increase defensible space
- Improve wildlife habitat for animals and recreation experience for humans
- Link with surrounding landowner efforts to advance forest health in larger ecosystem

BACKGROUND

- GMF is located in the steep canyon of Catamount Creek and Fountain Creek on the north slope of Pike's Peak
- 99% of GMF population live within the Wildland Urban Interface (WUI), the transition zone between unoccupied land and human development
(ref. CO Wildfire and Risk Assessment Summary Report, version 5.0, 10/8/19)
- Within Town limits, the highest wildland fire threats and risk exist on the south flank (Mt Rebecca, Mt Esther) and north flank (Mt Dewey). (ref. 2019 Town of GMF Comp Plan, Appendix 1, Fig. 2, Fig. 4)
- Town of GMF has allocated \$5K in the FY20 budget to support fire mitigation efforts
- Any additional funding will be leveraged to attract further matching grant money

PRIORITIES - Fuels reduction / thinning

1. Town rights-of-way
 - a. Priority egress routes (Ute Pass Ave / Green Mountain Falls Rd, Hondo Ave, Belvidere Ave, Park Ave / Pine St)
 - b. Rights-of-way with existing roads
 - c. Rights-of-way without roads
2. GMF South Flank
 - a. Mt Rebecca. Below Thomas Trail to private property boundaries
 - b. Mt Rebecca. Above Thomas Trail
 - c. Mt Esther. Below Kirkpatrick Trail to private property boundaries
 - d. Mt Esther. Above Kirkpatrick Trail
3. GMF North Flank
 - a. Below Bratton Trail to private property boundaries
 - b. Above Bratton Trail
4. GMF West Flank - the "Horseshoe" area connecting Mt Dewey with Mt Rebecca
 - a. Colo Spgs Utilities access road, working uphill towards Garden of Eden meadow. Access via Catamount Trail

IMPLEMENTATION*

year 1: mix priority 1a, 1b, 2a

year 2: finish 1a, 2a

year 3: finish 1b, mix 1c, 2b

year 4: finish 1c, 2b.

year 5: mix 2c, 3a

Out-years: monitor progress, reevaluate priorities

*Further refinement based on support from additional agencies (Coalition for the Upper South Platte, Colorado State Forest Service, Colorado Springs Utilities, El Paso and Teller Counties)

METHOD

- Tree stands will be thinned mechanically or manually to return treated areas to their historic range of variability
- Slash will be lopped and scattered or chipped and broadcast to maintain slope stability
- The corridor areas immediately adjacent to hiking trails will be minimally affected by thinning / cutting
- Prime habitat or nesting sites will be marked and preserved to retain 2-7 snags per acre for wildlife

Standing by for your comments. Thanks in advance for your time!
Rocco
