

# Want better internet service?

Help Green Mountain Falls with a study of home internet quality.

## What you'll need:

- A laptop or desktop computer in the same room as your Wi-Fi router (or hard-wired/plugged directly into your router or modem with an ethernet cable)
- A current/recent copy of your internet bill showing the speed tier of your subscription
- [Click Here](#)
- Answer a few short questions and test your internet speed on at least **3 different days** to help the town collect data!
